

MMUCO ORION PHASE 1

Draft Measurement Schedule for Planning Portal Review

Prepared from user-provided sketches and planning portal values

1. Project information

Project	MMUCO ORION Operating System / Phase 1 agricultural support infrastructure
Lead	Nnamdi Michael Okpala
Site	Forest Farm Peace Garden / Forest Farm Allotments, Hazelbrouck Gardens, Hainault, Ilford, IG6 2XN
Planning purpose	Agricultural support building, glasshouse/greenhouse, and conservatory / covered growing or welfare space
Status	Draft only - measurements should be checked on site before submission

2. Measurement schedule

The following dimensions are the clearest measurements visible from the sketches and the values entered into the Planning Portal fee calculator.

Ref	Element / area	Visible measurement	Calculated area	Confidence / action
A1	Agricultural support building	40 sq m gross external floor area	40 sq m	High - matches Planning Portal entry
A2	Glasshouse / greenhouse	30 sq m gross external floor area	30 sq m	High - matches Planning Portal entry
A3	Conservatory / covered growing or welfare space	5 m x 4 m	20 sq m	Medium/high - visible on floor plan; verify on site
A4	Front French double doors	1680 mm opening width	N/A	Medium - visible on sketch; confirm manufacturer/opening size
A5	Large square/plot shown top/right	Possibly 10 m x 10 m	Possibly 100 sq m	Low - handwriting is faint; do not submit without confirming
A6	Small internal hall / opening	Possibly 1.0 m to 1.8 m	N/A	Low - not readable enough for application use
A7	Small WC / internal service rooms	Dimensions not readable	N/A	Low - redraw with clear lengths and widths
A8	ORION battlefield / linked octagonal layout	Compass orientation shown: North, South, East, West	N/A	Concept layout only - add scale and boundary dimensions

3. Area totals

Element	Area	Include in clear Phase 1 total?
Agricultural support building	40 sq m	Yes
Glasshouse / greenhouse	30 sq m	Yes
Conservatory / covered growing/welfare space	20 sq m	Yes

Clear Phase 1 visible footprint total: 90 sq m

4. Planning Portal fee note

The Planning Portal fee shown in the screenshot is £2,658 total, made up of a £2,567 subtotal plus a £91 service charge.

Do not submit/pay until the selected development categories are checked. In particular, avoid selecting “use of land for disposal of refuse or waste materials” unless the proposal genuinely involves a waste/refuse disposal use.

For a cleaner Phase 1 submission, the application should be described in ordinary planning language: agricultural support building, glasshouse/greenhouse, and covered growing/welfare space.

5. Redraw checklist before submission

- Use one clean A4 or A3 sheet for the site plan and one for the floor plan.
- Add a north arrow and a scale, for example 1:100 or 1:200.
- Draw the red-line site boundary and label access routes.
- Label every proposed structure and give length x width in metres.
- State gross external floor area for each building.
- Separate Phase 1 agricultural works from any future housing / compound proposal.
- Keep concept language such as “constitutional compound” in supporting statement; use planning-language labels on the drawings.
